

GURUPRASAD NANIVADEKAR

Data Analyst | Business Analyst | Power BI • SQL • Python • Generative AI

nanivadekarguru@gmail.com | [guruprasad-nanivadekar.github.io](https://github.com/guruprasad-nanivadekar) | +91-9518506383 | Pune, Maharashtra, India

PROFESSIONAL SUMMARY

Data Analyst and Business Analyst with 4.7 years of experience in Power BI dashboard development, SQL-based data analysis, Python data pipelines, KPI reporting, and business process improvement. Completed a structured Generative AI self-learning program covering LLMs, prompt engineering, and RAG concepts — and applied basic Gen AI tools (ChatGPT, GitHub Copilot) in daily work to improve reporting speed and code productivity. Strong track record of delivering accurate, stakeholder-ready dashboards and insights across oil & gas and IT service management domains. IIBA-endorsed certified. Immediate joiner.

CORE COMPETENCIES

Power BI (DAX, RLS, Data Modelling) • SQL • Python (Pandas, NumPy) • Excel & Power Query • KPI Design & Reporting

Business Analysis (Requirements, User Stories, Gap Analysis, UAT) • Root Cause Analysis • Stakeholder Communication

Generative AI Fundamentals • Prompt Engineering (Basic) • ChatGPT • GitHub Copilot • Agile / Scrum

TECHNICAL SKILLS

BI & Visualization: Power BI, DAX, RLS, Power Apps, Data Modelling, Drill-through, Bookmarks, Tableau, Excel (PivotTables, Power Query, Charts)

Data & Querying: SQL (Joins, Aggregations, Window Functions, Subqueries), Python (Pandas, NumPy, Matplotlib), Data Cleaning & Validation

Generative AI (Basic): ChatGPT (Prompt Engineering, Report Drafting), GitHub Copilot (Python/SQL Productivity), Generative AI Concepts (LLMs, RAG, Embeddings — theoretical knowledge from self-study)

Business Analysis: Requirements Gathering, As-Is/To-Be Mapping, User Stories, UAT Support, Process Improvement, Gap Analysis

Tools & Platforms: JIRA, Azure DevOps, MS Office Suite, SharePoint, Google Colab, Streamlit (basic)

WORK EXPERIENCE

Business Analyst – Analytics & Solutions

April 2025 – Present

Quest Global | Pune, India | Oil & Gas Domain

- Designed and delivered Power BI dashboards tracking workforce KPIs across 500+ employees, giving leadership real-time visibility into utilization, availability, and bench strength.
- Built 15+ advanced DAX measures (utilization rates, period-over-period variance, bench trends) — standardizing KPI definitions across all business units.
- Implemented Role-Level Security (RLS) across all dashboards, restricting data access by business unit and management tier for 10+ stakeholder groups.
- Used ChatGPT with structured prompt templates to draft plain-English KPI commentary and executive report narratives — reducing manual report writing time by ~40%.
- Extracted and prepared workforce data using SQL and Python (Pandas), resolving data quality issues across 5+ source feeds to ensure 99%+ reporting accuracy.
- Led requirement-gathering sessions with 8+ stakeholders to translate workforce reporting needs into dashboard specifications across 3 major iterations.

Associate Software Engineer – Business Analyst

November 2021 – April 2025

Mphasis | Pune / Bengaluru, India | IT Service Management

- Analyzed issue logs covering 1,000+ monthly records using Excel, identifying top 5 recurring issue themes driving 70% of total incident volume.
- Built and maintained Power BI dashboards tracking issue trends and resolution KPIs, adopted by 4 cross-functional teams as the primary reporting tool.
- Conducted root cause analysis on high-frequency issues — targeted process changes reduced recurrence of the top 3 issue categories by ~30% over two quarters.
- Used ChatGPT to assist in drafting monthly management summary reports with consistent executive tone, and GitHub Copilot to accelerate Python scripting by ~30%.
- Led requirement-gathering sessions to document pain points and translate them into 12+ process improvement proposals over 3.5 years.

- Performed proactive trend analysis on weekly data, surfacing emerging patterns 2–4 weeks before escalation — reducing P1 incident frequency by ~25%.

KEY PROJECTS

Electronics Sales Performance Dashboard

Personal Portfolio Project

[Power BI](#) | [Python](#) | [SQL](#) | [DAX](#) | [ChatGPT](#)

- Built an end-to-end Power BI dashboard analysing 50,000+ records across smartphones, laptops, and accessories — featuring DAX-driven KPIs (revenue, units sold, return rate, YoY growth) with drill-through by product and region.
- Cleaned and transformed raw data using Python (Pandas) and SQL before loading into Power BI — resolving inconsistencies across 6 source files for 100% calculation accuracy.
- Uncovered a 22% Q3 drop in laptop sales and identified top product lines contributing 60%+ of revenue — used ChatGPT to draft executive-ready narrative commentary.

HR Attrition Analysis Dashboard

Personal Portfolio Project

[Python](#) | [Pandas](#) | [Power BI](#) | [SQL](#)

- Analyzed 1,400+ IBM employee records to identify key attrition drivers by department, salary band, and age group using Python (Pandas) for EDA and data preparation.
- Built a 3-page interactive Power BI dashboard with slicers and cross-filtering, delivering business-ready HR recommendations to reduce attrition risk.

AI-Assisted Reporting Prototype

Personal Learning Project

[Python](#) | [Streamlit](#) | [ChatGPT API](#) | [Prompt Engineering \(Basic\)](#)

- Built a basic Streamlit interface that takes KPI data from a CSV and uses ChatGPT (free tier) to auto-generate plain-English summary paragraphs — exploring how Gen AI can assist in business reporting.
- Learned fundamentals of prompt engineering: zero-shot, few-shot, and chain-of-thought techniques through the 10-day self-directed Gen AI learning program.

EDUCATION

Bachelor of Technology – Electronics & Telecommunication

2017 – 2021

Ashokrao Mane Group of Institutions, Kolhapur | CGPA: 7.70 / 10

Diploma – Electronics & Telecommunication

2013 – 2017

Sanjay Bhokare Group of Institutes, Kolhapur | 70.59%

CERTIFICATIONS

- Business Analysis Fundamentals – IIBA Endorsed ✓ Completed
- Microsoft Power BI Desktop for Business Intelligence – Microsoft ✓ Completed
- Generative AI for Everyone – DeepLearning.AI / Coursera ✓ Completed
- Generative AI Self-Directed Intensive – (LLMs, Prompt Engineering, RAG Concepts, GitHub Copilot) ✓ Completed
- Microsoft Dynamics 365 Fundamentals (MB-910) – Microsoft Learn ⌚ In Progress
- Salesforce Business Analyst Career Path – Salesforce Trailhead ⌚ In Progress
